

**"The 5 Things Air Duct Cleaners Do That Drive Everyone Crazy... And How Aspen Air Solves Them."**

*(What every homeowner should know before calling a duct cleaning company)*

**Better Health Safety & Savings**

**weheaturight.com**

**1. Untrained Technicians.** Or even worse, not certified. It is dangerous and costly to hire a Duct Cleaner or a Carpet Cleaner to clean your heating system. As a licensed heating and cooling contractor, all of our technicians carry two certifications and are expertly trained.

**2. Bait and Switch Sales.** Putting disclaimers in their coupons "10 vents", or "2 mains" is a way for them to get into your home, and then persuade you to spend too much money. At AspenAir you know the exact amount before the work begins.

**3. "Blow and Go".** Many technicians may be quick, but odds are, you'll need them to come right back because they probably did not do the job properly the first time. At AspenAir, our technicians are trained in the proper techniques that ensure you receive the best job...the first time!

**4. Your Home = the New City Dump.** Many technicians leave packaging around your house, and drag their muddy shoes into your home! Our techs treat your home as if it were their own. They don't leave behind any trash, just an outstanding job.

**5. Call Backs.** Other servicemen have a "Concrete Guarantee:..." when their trucks leave your concrete driveway, their guarantee expires. With us you have a 100% SATISFACTION GUARANTEE. If you are unhappy for any reason, we will redo the service for FREE.
